

# Aiptek Pocket DVII 1.3M LCD Speaker Replacement

If your sound is muffled, distorted, or not playing at all, follow these step by step instructions to replace the speaker.

Written By: Gyoza Aba Hivatal

## Step 1 — Speaker

- Remove the battery cover.
- Remove the batteries.

## Step 2

- Unscrew the three 4mm screws from the battery side of the device. Use a Phillips screw driver.

### Step 3

- Remove the four screws from the back side.

### Step 4

- Remove the sticky black cover dot.
- Remove the hidden screw.

## Step 5

- Remove the two screws from the top side of the device.
- Remove the two screws from the bottom side of the device.

## Step 6

- Remove the rear cover.
- ⚠ Be careful not to lose the spring inside.

## Step 7

- Pull back the front cover so that you can dislodge the side cover.

## Step 8

- Unfold the device and be careful not to tear the black and red power supply wires.

## Step 9

- Unplug and replace the speaker.

To reassemble your device, follow these instructions in reverse order.
